white face with calendar date
genuine black leather strap
satin polished stainless steel case
sapphire crystal glass
waterproof 3 atm.

Martin Larsen was born in 1970 in Denmark and has a background in industrial design and mechanical engineering. After graduating from the Royal College of Art in London, he continued to work with various designers there before relocating to Copenhagen where he runs his own design studio.

Embracing his Scandinavian design roots, Martin Larsen is inspired by the potential of geometric forms. In his work he strives to explore the essence of materials and structures. With the new range of watches for *Danish Design* Martin Larsen has designed simple yet sculptural timekeepers.
